1/14 Beast II 6 x 6 chassis with Mil-Spec Hard Body

Are you ready for the end of days? The opportunities are limitless with the Beast II truck kit. Sunday driver to world domination. Its up to the imagination to complete your Beast II.

The Beast II has unmatched scale detail allowing for a realistic model, or a true performance oriented 6x6 trail truck. The Beast II is built with engineering and design first. Packed with great products like the R3 2 speed transmission, Yota II axles, Triton transfer case, Mil-Spec ZXL tires, and 1.9 Humvee beadlock wheels. There are no better options!

Beast II... What's in store for you?
The R3 scale 2 speed transmission comes with a tough cast metal case and new wider gears to allow for more abuse along with a Delrin spur with slipper clutch. Also features a sturdy billet aluminum motor mount for durability.

Drawing on the success of the RC4WD MOA gear sets, the Beast II drivetrain has the most durable gears RC4WD has to offer so the Beast II can stay on the trail day after day.

The Beast II includes the Triton Transfer Case. Packed with scale detail, the Triton features a cast metal exterior and heavy duty .8 Mod widened gears for durability.

The Driveshafts for the Beast II are a design featuring bulletproof steel universals and a high quality plastic shaft for great driveline angles and durability on the trail.

The most scale accurate axles on the market, the RC4WD Cast Yota II Axles feature innovative 8 degree round knuckles, unique removable diff covers, new mounting points and a compact offset pumpkin in front.
The Beast II includes a set of our RC4WD Dual Spring Shocks. An all new design, this ultimate scale shocks has realistic looks and the ultimate in performance. Machined from billet aluminum with dual springs and totally rebuildable.

The All New Beast II Chassis is a machined billet aluminum ladder frame with an all link suspension design, scale shock hoops, chassis servo mounts and hard body mounting points for the ultimate in strength.

The Beast II includes a set of RC4WD Black Humvee 1.9 internal beadlock wheel. Featuring a super tough black finish and aluminum internal locking ring.

This is military specification truck, it must have a tough set or rock grabbing tires and the included MIL-SPEC ZXL in Advanced X4 Medium Compound deliver traction as well as perfect scale appearance in just the right size.

The Beast II chassis features multiple options to allow you personal setup for your electronics. We provide battery slots and velco straps for easy battery placement.
Ultimate details were captured with the Mil Spec Body set. RC4WD captured everything needed to make this a great scale body and a great scale build.

The Mil Spec Body Set is made up of 100 parts and pieces. It’s all here to bring your build to next level. Metal detail parts included to bring the realism to life including lenses for signal lights. All lamps can be illuminated with modification.

The Beast II Body has an awesome appointment of scale details including mirrors, spare tire holder, and handles to replicate a 1:1 vehicle.

The Beast II Body Set comes in durable hard plastic molded in a paintable gray finish, perfect for custom paint. All the trim parts are separate pieces to get a great look with minimal fuss.

Ultimate details were captured with the Mil Spec Body set. RC4WD captured everything needed to make this a great scale body and a great scale build.
**Triton Transfer Case**
- Ratio - 1:1 Gearing .8 Mod Hardened Steel Gears, 8 Bearing Design, Cast Casing
