DRIVETRAIN

The R3 Single Speed Transmission comes with a tough cast metal case and wider gears for durability and a Delrin Spur with Slipper Clutch for performance. It also features a sturdy billet aluminum motor mount for added toughness.

The Trail Finder 2 LWB Kit includes the Hammer Transfer Case. Packed with detail, the case features a cast metal exterior and the same 0.8 Mod widened gears for durability.

Drawing on the success of the RC4WD MOA Gear Sets, the Trail Finder 2 has the most durable gears RC4WD has to offer, capable of staying on the trail day after day.

The most scale-accurate axles on the market, the K44 Ultimate Scale Cast Axles feature high steer knuckles, XVDs, lower mounting points, and a compact offset front pumpkin.

The driveshafts on the Trail Finder 2 feature heavy-duty uni-joint metal shafts for great driveline angles and durability on the trail.

Chevrolet Scottsdale 10

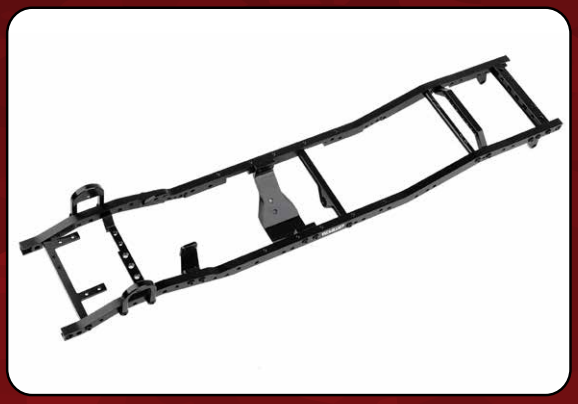

The Trail Finder 2 "LWB" Kit Chassis features a molded fuel cell that doubles as an electronics aluminum storage box with multiple storage options.

SUSPENSION

The Trail Finder 2 "LWB" Kit Chassis includes Scale 70mm and 80mm White Shocks with Internal Springs. These ultimate scale shock absorbers offer realistic looks and ultimate performance. They are machined from billet aluminum with internal springs and are customizable.

The Trail Finder 2 "LWB" Kit Chassis has a machined billet aluminum ladder frame design and features leaf springs, scale shock hoops, chassis servo mounts, and hard body mounts for maximum strength.

This truck includes a set of Rally 1.9" Beadlock Wheels (Silver). The wheels are stamped steel and have a smooth silver finish with a chrome beauty ring for extra detail.

Every Off-road truck needs a tough set of tires to hit the trails and the included RC4WD BFGoodrich Mud Terrain KM 1.9" Scale Tires deliver the perfect amount of traction with its advanced X2 soft and sticky compound. The scale details complete the look in just the right size.
