

BULLY II MOA

RTR COMPETITION CRAWLER

Ready to hit the rocks!

The Bully 2.2 MOA Competition Crawler is a full out of the box, ready to compete Crawler Kit. The Bully 2.2 offers unmatched features that include carbon fiber chassis, Bully 2.2 Competition CNC machined axles, aluminum shocks, titanium links, carbon fiber and delrin Rocker 2.2" Beadlock Wheels and Bully Advanced X2SS Compound Competition Tires.

This unit is a prebuilt, ready to add batteries, purpose built crawler. Built with the intention to meet the U.S.R.C.C.A rules and destroy the competition. Bully axles offer ultimate strength and durability, full ball bearings, steel internal heavy duty gears, XVD's, clockable C's, sleek gearbox and tons of adjustability to meet your needs.

The MOA allows for ultimate control with its dual motor setup. This will reduce your center of gravity and increase the run time. Paired with a Rocker Dig II (Z-E0028) to allow for independent control of the motors giving you optimum power and other useful functions on the rocks.

Not all RC Crawler manufacturers are created equally, RC4WD sets itself apart from the competitors by offering amazing quality and details. Adding to our portfolio is this crafted crawler that will without a doubt rock your world with its out of the box features! No other crawler or crawler company can compare. The Bully 2.2 MOA Competition Crawler is a game changer!

Features

- CNC Machined Aluminum Axles
- MOA (Motor on Axle Design)
- Steel Internal Heavy Duty Gears
- Bully 2.2" Competition Tires (Advanced X2SS Compound)
- Carbon Fiber and Delrin Wheels
- Clockable C's
- Aluminum Shocks
- Titanium Links
- Carbon Fiber and Delrin Chassis
- High Clearance Chassis Design
- Carbon Fiber Battery Plate
- Easy to Paint Lexan Body Panels
- Endless Customizing for a Unique End User Experience

Ground Clearance: 92mm (3.6")
Final Drive Ratio: 40.7 : 1
Weight: 4.38lbs/1.99Kg

These solid titanium links are made from RC4WD and offer great drive-line angles and performance on the rocks.

These rod ends are made with a new advanced plastic compound from RC4WD and provide maximum durability on the rocks.

The new Bully 2 Gear Set is installed on Bully 2 Competition Crawler Axles. They have the most durable gears RC4WD has ever offered so that the MOA will stay on the rocks, day after day.

The new Bully 2 Axles have spent years in research, testing and development to bring you a competition worthy axle out of the box. No need to spend countless dollars on upgrading these axles.

Designed to be an out of box competition crawler tire, the Bully 2.2 is created with the help of the RC4WD Crawler Team with full testing completed in multiple conditions and terrains.

Aluminum shocks feature a completely new design from the ground up and are built to handle all terrains. Your crawler will be able to battle all the flex needed to conquer the rocks.

The MOA chassis is machined with carbon fiber material. This is a new high-quality material RC4WD uses to make the MOA lighter to bring you the best options for your crawling style.

The high-quality carbon fiber and delrin materials make these wheels super lightweight, while still providing ample strength to support the weight of the MOA crawler.

SUSPENSION

PRECISION ENGINEERED • BULLET-PROOF COMPONENTS • PERFORMANCE PARTS

The popular RC4WD Outcry III Waterproof ESC Brushed Speed Controller with built-in drag brake is included for reliable, constant power on demand at any time.

With a massive 277.6oz@6V of torque and a full metal geared drivetrain, the RC4WD Twister Metal Gear Digital Servo has the power and performance needed to outmaneuver and overcome tough terrain.

This small unit can be placed in almost any competition crawler and allows full control of F&R dig on any MOA crawler with ease. The Rocker Dig makes dig as easy as plug and play.

MOA Competition Crawler includes a high-quality XR4 revolutionary advanced radio system. It offers a 3rd and 4th channel. The 3-position switch is made for DIG switch and other customizable functions.

The MOA is powered by the Boost Rebuildable 35T Crawler Motor to supply you with loads of power, low end torque and high end speed to help propel the MOA anywhere.
