DRIVETRAIN

The R3 Single Speed Transmission comes with a tough cast metal case and wider gears to allow for more abuse along with a Delrin Spur with Slipper Clutch. It also features a sturdy billet aluminum motor mount for durability.

The TF2 RTR includes the Hammer Transfer Case. Packed with scale detail, the case features a cast metal exterior and heavy duty .8 Mod Widened Gears for durability.

Drawing on the success of the RC4WD MOA Gear Sets, the TF2 RTR Drivetrain has the most durable gears RC4WD has to offer so the TF2 RTR will stay on the trail, day after day.

The most scale accurate axles on the market, the RC4WD Cast Yota II Axles feature innovative 8 degree round knuckles, unique removable diff covers, lower mounting points and a compact offset pumpkin in the front.

The Driveshafts for the TF2 RTR are designed with heavy duty metal uni-joints with tough plastic shafts for great driveline angles and durability on the trails.

1/10 Trail Finder 2 RTR w/Mojave II Crawler Body Set

The TF2 RTR Chassis features a molded fuel cell that doubles as an electronics storage box. There is also an aluminum, frame-mounted under cab electronics tray for multiple electronics mounting options!

SUSPENSION

The TF2 RTR includes a set of RC4WD Ultimate Scale Shocks. Designed for ultimate scale looks and ultimate performance. The shocks are machined from billet aluminum and internally sprung.

The TF2 RTR Chassis is a machined billet aluminum ladder frame design with leaf springs, scale shock hoops, chassis servo mounts and hard body mounts for maximum strength. Optional 4-link conversion is available on our store site.

The TF2 RTR includes a set of TRO 1.7" Stamped Steel Beadlock Wheels in a beautiful red anodized finish with chrome details. These steel stamped wheels with CNC machined parts offer amazing details in the popular 6 lug design.

Every TF2 RTR needs a tough set of tires and the included Interco IROK 1.7" Scale Tires provide just that! These tires are known for handling rocks, mud snow and whatever else you can throw at it with its durable advanced X2SS soft & sticky compound.
