Experience the versatility and advanced design of the Gelande 2 for yourself. Packed full of capability, the Gelande 2 is ready for any challenging condition. Put your off-road driving to the test and see why the G2 can easily maneuver extreme descents and climb with ease.

The G2 is built with quality materials and craftsmanship like the R3 single speed transmission providing power down to the transfer case and out to the Yota II axles.

The G2 comes with a 4 link rear and 3 link panhard bar suspension as a standard feature. The chassis mounted servo is out of view for a more scale appearance.

The G2 is completely versatile and can pull off many looks and styles. With the countless options available, RC4WD let's you customize your G2 exactly how you want without sacrificing performance. From emergency and expedition vehicles to daily drivers and hard core rock climbing rigs, the core of the G2 is built for the true off-road enthusiast!

The G2 now includes everything you need down to the battery and charger to start hitting the trails right out of the box!

Are you ready for your off-road experience?

RC4WD GELANDE II "LWB" RTR W/D110 HARD BODY SET (COLLECTOR'S EDITION)

GELANDE II

THE DETAILS

This is the RC4WD Wired Winch Control Unit offered to allow operation function from your radio and receiver. This will allow you to control a winch with your remotes third channel.

Illuminate your path and mount the included Warn Winch on this Functional Metal Light & Winch Bumper for Gelande II D90/D110.

Ultra scale and superior quality from the RC4WD 1/10 Warn 9.5cti Winch. This Officially Licensed Warn Winch is sure to get you out of any tough situation.

The Roof Rack for Gelande II D110 and Rear Ladder for Gelande II (D90/D110) will give this expedition style vehicle all the room it needs for our scale accessories.

Keep your body clean while conquering obstacles during your trail ride with the Tough Armor Steel Side Sliders and the Side Window Guards Pair.

DRIVETRAIN

The R3 Single Speed Transmission comes with a tough cast metal case and wider gears to allow for more abuse along with a Delrin Spur with Slipper Clutch. It also features a sturdy billet aluminum motor mount for durability.

The G2 includes the Hammer Transfer Case. Packed with scale detail, the case features a cast metal exterior and heavy duty .8 Mod Widened Gears for durability.

Drawing on the success of the RC4WD MOA Gear Sets, the G2 Drivetrain has the most durable gears RC4WD has to offer so the G2 will stay on the trail, day after day.

The most scale accurate axles on the market, the RC4WD Cast Yota II Axles feature innovative 8 degree round knuckles, unique removable diff covers, lower mounting points and a compact offset pumpkin in the front.

The Driveshafts for the G2 are a design featuring bulletproof steel universals and a high quality plastic shaft for great driveline angles and durability on the trail.

SUSPENSION DISCS

The G2 Chassis features a molded fuel cell that doubles as an electronics storage box plus an aluminum, frame-mounted under cab electronics tray for multiple electronics mounting options. Also includes a sturdy battery tray with strap mounts.

80mm Old Man Emu Nitrocharger Sport Shocks by ARB. These new shocks feature a new design from the ground up and are built and ready to handle the rocks. Your scale build will never be the same once you bolt up a set of these.

The G2 Chassis is a machined billet aluminum ladder frame with an all link suspension design, scale shock hoops, chassis servo mounts and hard body mounting points for the ultimate in strength.

1.55" Landies Vintage Stamped Steel Beadlock Wheels, featuring a super tough white finish, aluminum internal locking rings and removable hubs look perfect on this truck.

Officially Licensed Dick Cepek Fun Country 1.55" Scale Tires. These tires deliver extreme scale looks as well as traction to take you over any obstacle you encounter on the trail.
