TRAIL FINDER 2 XTRA CAB

RC4WD TRAIL FINDER 2 "LWB" RTR W/ 1987 TOYOTA XTRACAB HARD BODY SET (WHITE)

The R3 Single Speed Transmission has a cast aluminum case and wider gears to allow for more use and features a Delrin Spur with Slipper Clutch.

DRIVETRAIN

The TF2 Long Wheel Base Chassis includes the detailed Hammer Transfer Case. Featuring .8 Mod Widened Gears and a metal exterior, this heavy-duty scale case is off-road ready!

Drawing on the success of the RC4WD MOA gear sets, this drivetrain has the most durable gears RC4WD has to offer, so stay on the trail day after day.

Featuring some of the most detailed axles on the market, RC4WD Yota II Ultimate Scale Cast Axles feature innovative round knuckles, rugged leaf spring perches, and compact pumpkins. The front pumpkin is also offset, replicating the setup of a full-size rig!

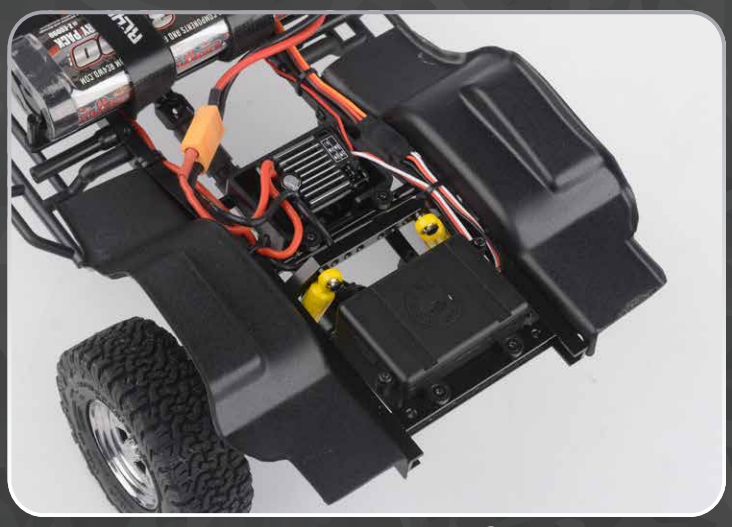

With dedicated detail and profound performance, this RC truck's drive shaft design features bulletproof steel universals and a high-quality plastic shaft for great driveline angles.
